Triple Motor Jumbo Wet Dry Vacuum Cleaner

Part Number: VHJUMBOVAC

The Triple Motor Jumbo Vacuum is designed for the vacuuming large amounts of light/bulky dry materials eg sawdust or wet materials such as concrete slurry. The unit is a powerful triple motor vacuum with a huge 200 litre drum on a heavy duty trolley. The 50mm accessories are included as standard. The unit is also available in a twin motor version with 38mm accessories. Also available are Cyclone Separators for the collection of large amounts of very fine dust.

***Avoid the use of long electrical extension leads on large double and triple motor vacuums as voltage drop can occur.

SPECIFICATIONS

Vacuum Type: Dry Only
Number Of Motors: 3
Motor Type: Single Stage
Motor Power: 3300W
Water Lift (depression mm): 2200mm
Voltage: 230-240V 50Hz
Vacuum Airflow (l/m): 8500l/m
Filter Type: Hepa
Filtration Level: 20-25 micron
Filter Cleaning: n/a
Power Tool Outlet: Yes
Total Tank Capacity (l): 200L
Tank Construction: Painted Steel
Trolley: Push trolley
Toolset Size: 32mm
Vacuum Intake Size: 32mm
Vacuum Intake Position: Central with deflector
Vacuum Hose Length (m): 5m
Cable length (m): 8m
