Car Wash Fixed Pressure Cleaner - 415V / 1500psi Auto Stop/Start

Part Number: 00EI1511STAR415

A powerful three phase pressure cleaner developed by Kerrick specifically for the car wash industry in Australia, and is also used heavily in food preparation. This is a stationary, easy to use and versatile cleaning unit that can be wall or stack mounted.

Features include a heavy duty unloader, IP56 rated electricals, and flex coupling between pump and motor to avoid heat transfer. This pressure cleaner has automatic stop/start functions for ease of operation.

Compact, industrial three phase high pressure washer designed specifically for the Australian market

- Easy to use and versatile
- Zinc-plated box frame for wall or stack mounting
- Low speed motor
- Flex coupling drive between pump and motor
- Heavy duty brass pump and unloader valve
- Thermal protection valve
- Gun with brass swivel
- Delayed stop and restart via trigger activation
- 415V DOL, 24V control
- One year commercial warranty

SPECIFICATIONS

- **Flow:** 11 lpm
- **Motor Type:** Electric
- **Motor Power:** 2.2kW
- **Voltage:** 415V 50Hz
- **Pump Model:** Heavy duty brass pump and unloader valve
- **Pump Speed:** 1440
- **Max Temperature:** Cold water
- **Hp Hose Type:** 3/8 in two wire braid
- **Hp Hose Length:** 10
- **Frame Type:** Zinc-plated box frame for wall or stack mounting
