EI 3015 Three Phase Pressure Washer

Part Number: #EI3015

A compact, industrial, three phase pressure washer with a hardy L-shaped frame, this unit has been locally designed and manufactured by Kerrick specifically for the Australian market. Features include a low speed motor, heavy duty pump, mounting plate for a high pressure hose reel and a thermal dump valve. This unit is ideal for heavy duty cleaning and industrial pressure washing applications. It's also popular with the car detailing market due to its heavy duty nature and low speed pump. Car detailers tend to have the system wall mounted and run it off several 360° boom arms which allows operators easy movement and access to all areas of the vehicles they are cleaning. Available with manual (EI3015) or automatic (EI3015CW) stop/start.

SPECIFICATIONS

Flow: 15 lpm
Motor Type: Electric
Motor Power: 5.5kW
Pump Make: Interpump
Pump Speed: 1440 RPM
Hp Hose Type: 3/8 in two wire braid
Hp Hose Length: 10m
Frame Type: Zinc plated steel
Wheels: 2
Weight: 70kg

Great value for money, this high pressure washer is ideal for the construction, automotive and agriculture industries

Compact design and easily manoeuvrable

EI1511ECON is mounted on a two wheel powder-coated trolley, EI1511 has a heavy duty roll-over frame with folding handle, EI3015 and EI3021 are mounted on a two wheel powder-coated trolley with alloy checkerplate cover.

Thermal protection valve

Heavy duty brass cylinder head pump

Flexible coupling drive between pump and motor to prevent heat transfer

Slow spinning motor

Optional turbo lance

One year commercial warranty
