## HOT WATER HIGH-PRESSURE CLEANER

Painted steel structure with stainless steel door. Flame control photocell. Delayed total stop with leakage control. Automatic by pass valve. Safety valve. Temperature adjustment thermostat (flow switch and pressure switch). High efficient stainless steel vertical boiler. Ventilation by independent electric motor. Water level control float and machine stop in case of lack of water. Double flange motor. Motor and pump connection with elastic coupling. High pressure chemical suction. 24V Low tension electrical controls. Magnetothermic overload switch. Internal acoustic and thermic lagging (anti frost protection). Lockable electrical controls.

### Equipment:

#### STANDARD

- 10 m HP hose with quick coupling
- 120 cm lance
- Professional gun
- Stainless steel water nozzle

#### OPTIONAL

- Chimney protection
- Pre-arrangement for remote control
- Sandblasting head
- Rotating nozzle
- Stainless steel cabinet
- Electrical antiscale system
- Drain pipe kit

### Performance:

- 1500 psi @ 12 L/min
- Speed 1450 rpm
- 230V 50Hz MONO
- Temperature 30-100
