Garage Car Detailer & Upholstery Cleaner

Part Number: [VE366F](#)

The Garage Car Detailer is a double vacuum motor, commercial shampooer and upholstery cleaner. This unit incorporates a separate pumping and recovery system making it ideal for upholstery shampooing and car detailing. With its double motor suction power the Garage Car Detailer removes 90% of moisture from the car upholstery, which results in shorter drying times. This shampoo extractor comes complete with 8m vacuum hose, upholstery tool, crevice tool and dusting brush. Watch videos of the unit cleaning greasy carpet stains and making quick work of office upholstery by clicking the links in bold
